Extract from a letter from H. M. Cary, to H. L. Stewart, Esq., No 187 Second street New York:

Selma, June 30, 1849

Dear Friend Stewart—I have been home now just two weeks. When I last saw you, I had but little hopes of ever getting any better. But I have now the pleasure of thanking you for recommending me to take Dr. Ayer's Syrup of Liverwort, Tar, and Canchalagua. I did as you directed, and took about two bottles, before I left New York, and I am happy to say, I do believe it has done me more good (but my other friends may think I am flattering, if it is) than all the doctors I have seen. On my first taking, it increased the expectoration, and I raised a good deal of bloody matter in my lungs, but that has gone off, and also my cough, nearly. I cough a little now, but not as much as before I took your medicine. I consider it a favorable medicine, and shall recommend it to all I see who are afflicted with a cough or Bleeding Lungs. It is a very pleasant medicine to take.

I am a young lady who had the CONSUMPTION and had been a good deal from the Lungs, and doctored about six months with our Physician, but grew worse; have the bleeding yet, and never [illegible]. I acted almost miraculous in her case. —Yours truly, Miss [illegible]

The Original Letter from which the above is an exact, is on file, and can be seen at our office, 216 Broadway.

BLEEDING AT THE LUNGS.

SEE HOW PROMPTLY IT ACTS

Statement of Mr. A. Lang, Baker, No. 338 Pearl street, N. Y.

A few years ago I was taken unwell, and soon after I commenced raising blood from the lungs. I had a bad cough, and quite a number of physicians attended me, but I grew worse all the time. I finally concluded to try Dr. Ayer's Syrup of Liverwort, Tar and Canchalagua. Before I had taken the third bottle my bleeding had stopped, my cough was easy, and I felt well as usual. My health is now as good as it ever was, and I am satisfied that Ayer's medicine, and nothing else, saved my life.

Statement of Mr. Wm. Hoyt, Grocer, No. 1 Spruce street, N. Y.

Dr. J. C. Ayer—Dear Sir: I was taken with a severe cough, which settled on my lungs, and finally I was confined to my bed. I was attended by two physicians, but they gave me no relief. I was induced to try your CHERRY PECTORAL, which under Providence restored me to health.

Mr. E. Wilder, Esq.—Dear Sir—The Safe purchased of you was exposed to a great degree of heat, at the burning of the Telegraph Office, in this city. It was in the front chambers; the books and papers were uninjured, and the damage to the Safe very slight, although it fell from the second story in the basement of the building. Prescott, N. H., Sept. 20, 1851.

Dear Sir:—For three years I have been afflicted with a Cough, so distressing that I frequently kept my family awake every night in my chair, as my cough would not allow me to lay down. During these years I employed the best physicians and tried many remedies without relief, until I was induced by Dr. Ayer's Cherry Pectoral to try it. —OF A—

THOUSAND FLOWERS.

For the Toilet, the Nursery for Bathing, and many Medicinal Purposes

HIGHLY perfumed by its own ingredients. Recommended by the faculty of almost every European city, and established under the patronage of almost every Physician in London and Paris, and thousands of individuals, who make daily use of it in New York, Philadelphia and Boston—it is the greatest luxury a lady or gentleman could wish for, the improvement of health, for comfort and personal embellishment, and its delightful refreshing sensation, and the delightful softness it imparts to the complexion.

already well established by actual experience.

FIRST.—*This Balm removes every defect of the Complexion,*

And establishes in its stead Beauty and Health, for the time when both, by the changes of age, or breaks of nature or disease, have been obscured and unpurposed—it cleanses the skin, and draws to the surface all impurities, and every species of pimples and blotches, also removes tan, sunburns, sallowness and freckles, imparting to the skin its original purity, and an unsurpassed freshness, rendering it velvety, smooth, and white.

SECOND.—*It promotes the Growth and increases the Beauty, and gives to Curls in the most natural manner.*

It cures the head from dandruff, giving vigor, health and life to the very roots of the hair.

THIRD.—*It is a superior article for Shaving, being superior to all descriptions of Soaps, Creams, Pastes, &c.*

As a DENTIFRICE *for cleansing the Teeth* it is by far the most medicinal of any compound yet discovered, preventing decay, relieving pain, decays and tenderness, and renders the teeth as white as alabaster. For bathing it is unrivalled, and for adults to promote a uniform color of body, cleanliness, health and strength, and to prevent eruptions, &c., there is no article more valuable than this Balm. VEGETABLE PULMONARY BALSAM.

The GREAT REMEDY for COUGHS, COLDS, and CONSUMPTION, after a trial of twenty-five years, stands by almost general consent, at the head of these ailments. It is the only article that has ever gained a permanent reputation, for so long a period of time. Many exhibit physicians do not hesitate to acknowledge its superiority, and with entire confidence to recommend it to their patients, as a safe, speedy, and effectual remedy for the distressing affections of the Throat, Lungs, and Chest. One trial will convince the most incredulous of its superior excellence.

Chatham Four Corners, N. Y., Dec 30, 1850

Messrs. Read & Co.—Gentlemen:—Twenty years ago I had a violent attack of inflammation of the lungs, which was treated by my physician with the most powerful remedies, but which, in the end, left me with a severe pain about my chest. My cough was always troublesome, accompanied with an expectoration of the most painful and offensive kind, a part of the time streaked with blood, both of a dark and pink color. Several times did I think I should die with consumption. Having had your Balm in my house, which came recommended to me, I had continual night sweats, and was unable to dance at most to advantage. My case was considered hopeless, not only by the physicians, but by all who knew me. Accidentally hearing from a neighbor of the effects which the Vegetable Pulmonary Balsam had produced in his family, I procured a bottle of it. Before I had used one bottle, I began to improve, and by the time my fourth bottle was used up, I was restored to usual health. I had used a variety of other medicines which gave me no relief. A few weeks ago I was similarly attacked, and I am now using the Balsam with the same beneficial results. This statement is made of my own accord, and you are at liberty to use it as you think proper.

(Signed) "WM. P. NOXEN, P. M."

☞ New Certificates, to almost any extent, might be added if deemed necessary; but the proprietors feel that the middle man become so universally known, and its virtues so generally acknowledged by physicians and others, as to render it unnecessary, at this time, further proof of the merits of this highly popular article.

Whig Congressional District Convention.
FIFTH DISTRICT.

THERE will be a Convention of the Whigs of the Fifth Congressional District in this State composed by the Legislature, at Dover, Piscataquis County, on THURSDAY, the 20th day of May next at 11 o'clock, A. M., for the purpose of nominating a candidate to represent said District in the next Congress. Also to nominate a candidate for Elector of President and Vice President.

Likewise to make choice of a Delegate to represent the District in the Whig National Convention to nominate candidates for President and Vice President.

Towns having 1000 inhabitants and under are entitled to two delegates; over 1000 and under 2000, four; over 2000 and under 3000, six; over 3000 and under 6000, ten; and over 8000 fifteen. The Census of 1850 to be taken to determine the number of inhabitants.

It is hoped that every town will be fully represented. Per order of Committee.

April 17, 1852.

☞ A portion of the leaders of the loco party have been rejoicing over the prospect of a division between the Northern and Southern Whigs, on the question of the Presidency, but their rejoicings are rapidly being turned into wailings on account of the prospect that there will be a union of whigs on Gen. Scott for the Presidency, and he is the candidate they most dread. The recent declarations of Senator Mangum of North Carolina and Mr. Stanley of the House of Representatives, two clear headed, right hearted and truly patriotic Whigs, give the strongest hope of the favorable result of the approaching presidential election. These men are Whigs, and fully capable of taking a broad national view of political questions; they look beyond their own State, and their own section, and speak for the Union. They speak and act like prudent and sensible men, who desire the success of the Whig party, and who know that it is only to be attained by a liberal policy and by comprehensive measures. They understand that there are Whigs on both sides of the Potomac, and that there are prejudices which must be tenderly treated, not only in the South, but in the North. Let the interests of the party be confided to such men, to the National Convention assembled in this spirit and upon whomsoever the Whig nomination may fall, it will receive the cordial and united support of the party.

Mr. Mangum has declared that Gen. Scott was sound on the Compromise question, and would execute the Fugitive Slave Law; and on all questions of public policy, was eminently national and conservative. He declared that he would be elected, and no other Whig candidate could be elected.

☞ The editor of the Jeffersonian, who expressed astonishment that any democrat could vote in favor of the Compromise Measures, may put the following in his pipe. It is from the carefully revised speech of Hon. William H. Polk, brother of the late President, and now member of Congress, from Tennessee. This is the sort of Democracy which the Baltimore Platform will yield, and we have no doubt that the Jeffersonian will go in for the candidates, though it may grumble about the wording:—

"Mr. Van Buren, it will be well remembered, pledged himself to veto any act of Congress abolishing slavery in this District, though he acknowledged the Constitutional power to do so. So, also, I felt authorized to pledge any nominee of the next Democratic Convention for the Presidency, to give a like pledge as to a repeal or modification of the Fugitive Law, unless, indeed, such modification (not at all likely to happen) should prove necessary to its more effectual execution; and be generally demanded by the South itself. In short, any Democrat so nominee will unhesitatingly pledge himself to discountenance and, if necessary, resist any attempt to modify the Fugitive Slave Law, in accordance with the views and demands of those who are arming to effect that end."

☞ Messrs Parker & Humphrey, at their Agricultural store, on the East Side are fully prepared to furnish all needed articles in the Agricultural art.

☞ The fire annihilator was tried upon a sailboat which had accidentally taken fire at New York on Saturday. The flames were finally subdued only by the old fashioned means of water.

The Messrs Dunning have recently opened original packages of trees and shrubs, and a fresh stock of seeds for field and garden.

☞ Agricultural implements will soon be in demand and those in want are referred to our advertising columns.

☞ Mrs. Bedeemer is whining golden opinions in Massachusetts, by her elegant readings.

The Texas Legislature has passed the Maine law—6 majority.

☞ Snow fell to the depth of twenty inches in Aroostook last week.

☞ The ice left the Penobscot River last evening.

PHILADELPHIA, April 19.—Steamer Independence, belonging to the N. York Railroad Co. lying at Camden, was damaged by fire this morning, to the amount of $1000.

Kossuth arrived here last evening, passed quietly and carefully taken care of by the steamer at Walnut St. wharf, and left immediately for Burlington, where he intended to remain till Monday, dining with Bishop Doane. Kossuth was attended by a committee from Trenton.

WASHINGTON, April 19.—M. Kossuth and lady, with his suite, with some one hundred ladies and gentlemen, visited Mount Vernon to-day. Kossuth leaves for Trenton to-morrow.

FURTHER GOLD DISCOVERIES.—The Hudson's Bay Company have received intelligence that the crew of the Una, a vessel dispatched by them to Queen Charlotte's Island, in consequence of information that gold existed there, have succeeded in discovering, close to the shore, an extended vein of quartz. It is seventy yards in extent, and becomes deeper below the surface. The captain of the party was short, and the weather unfavorable, but they brought away, however, fifty-six pounds of the rock, which they have dispatched to London, and which is said to contain at least six pounds of pure gold. The vein strikes forty-two inches wide.

For the Whig & Courier.

I Know, I Know.

Over this remarkable organization has been an article in the Whig and Courier, discovering and exposing the "private influence which controls the Mercury, and what no whole community would be safe." Pray tell us, Mr. I Know, in your wisdom, who this whole community is. The timid quack of the Mercury is amused and the smaller quacks of the country are induced to "Ascend" with a fervent word in their I Know, and I hope to be pardoned for asking them, if I Know over astonished any one in the county of this whole life. The author of "I Know" as the scholar, though a much more adept than ordinary quacks, is a great deal too cunning to "ascend" in the balloon of his own conceit, and leave the community "that he is so anxious to save" to the tender mercies of the Mercury. That is a question, and I know I cannot answer it. Perhaps some of the friends of "I Know" can help him to personal attacks, and tell him what he has said of the Democratic party, and how he has treated the Democratic members of the Legislature, and he will be pleased to insert it in the end of

SPECTATOR.

Castine Correspondence.

CASTINE, Jan. 21, 1852.

Messrs. Editors:—

Thinking you may find a vacant square in the columns of your valuable paper to devote to the perusal of a distant reader, I will improve a few moments to give you but a faint description of this section of the Union and conjecture a share of this great Empire State, and now the abode of many who were once numbered amongst our Bangor citizens.

When California was first visited by the many adventurous gold seekers little or nothing was known of this portion of the State, now composing the County of Trinity and Klamath, of which Trinidad is the County seat of the latter and Klamath of the former. These counties border on the sea-coast lying between the north boundary of Mendocino Co. about one hundred miles north of San Francisco Bay, and the southern boundary of Oregon on the North. The two counties are much larger than any both of the State.

The first whites that have been known to set the project of laying out a city in the bay, on the strength of the late discoveries made in Scott's and Salmon Creeks. Others partook of the boat from San Francisco about that time (nearly two years ago) to discover the mouth of Trinidad River, that they passed by, supposing no water had the bay, but their efforts proving unsuccessful many of them landed at Trinidad—they met with no hostility from the Indians, but were met with a greatful if not servile welcome from the first whites the Indians had ever been taught by their traditions of a race having been wrecked on the coast, or years ago and some of the remains washed on the shore.

It will appear that, since that Port Trinidad had become the habitation of whites, that numbers were daily arriving on Scott's and Salmon Creeks, at the mouth of which Trinidad is situated, and their way thither.

It was not a short time after that the great gold excitement was started, although it failed to equal sanguine expectations, it was thought that Trinidad and the bays on the North had been settled.

Trinidad is situated on the bay of the same name, contains at the two hundred buildings, built after the style of all small towns in California, and sprung up like mushrooms upon the last arrivals, of one story houses containing from 6 to 12 squares, and lots which are either purchased or leased upon the discretion of the individual. The harbor is preferable to any above San Francisco Bay in the Summer season, but in the winter it being so much exposed to the S. E. winds it would not be safe for vessels at all times to lay at anchor.

It can boast much of its agricultural advantages in the immediate vicinity, the best land for that purpose lies north of it, on the valley of the Umpqua and Ridge River, for beyond the coast range of mountains.

Looking for the trading point for the miners on Salmon and Klamath River, it is destined to be a place of considerable importance.

The coast from San Francisco is very rocky and dangerous for coasting vessels, hence the reason that these parts have never been explored.

I find a large country in the interior rich in timber, grass when small valleys and creeks.

The forests are most beautiful, interspersed with many of the most splendid pine timber.

Find valuable mineral lands throughout the whole of this part of the state, which I anticipate in process of time, will be the means of bringing many thousands more to settle in this section of the country.

Gold has been found in many parts of the state, but the richest mines are not yet known.

It will appear that, since that Port Trinidad had become the habitation of whites, that numbers were daily arriving on Scott's and Salmon Creeks, at the mouth of which Trinidad is situated, and their way thither

A Certificate.

BANGOR, June 8, 1850.

THIS certifies that I have been occasionally afflicted with sore and inflamed eyes and have tried several kinds of Eye Water with little or no relief, was induced to try a bottle of MANN'S EYE WATER, which entirely cured them and also cured Eve on the other person this was about a year ago. Last fall I procured another bottle, and carried it into the west with a view of introducing it there. However, before the men in the place were established with the Eye! All were sure that would be used every person who saw me, he would say, what is your Eye Water, to cure my sore eyes? I will refer to Mr. Warren Brown of Bangor, and the men in his employ. This certificate is entirely voluntary, and I give it (

Another Scientific Wonder

DR. J. S. HOUGHTON'S Great Dyspepsia Cure!

THE TRUE DIGESTIVE FLUID, OR Gastric Juice,

PREPARED from the fourth STOMACH of the Ox, in connection with Baron Liebig, the great Physiological Chemist, by J. S. HOUGHTON, M. D., Philadelphia.

This is a Great Natural Remedy in the following Diseases, viz: Indigestion and Dyspepsia, Heartburn, Sick Headache, Nervousness, Languor after Meals, Low Spirits, &c. &c. It is prepared by Baron Liebig's process, and is the identical Gastric Juice—the Solvent of the Food, that *Digests, Prepares, and Strengthens Aliment*—the chief element, or Great Digesting Principle of the Gastric Juice—the Solvent of the Food, that *Digests, Prepares, and Strengthens Aliment*—the chief element, or Great Digesting Principle of the Gastric Juice—the Solvent of the Food, that *Digests, Prepares, and Strengthens Aliment*—the chief element, or Great Digesting Principle of the Gastric Juice—the Solvent of the Food, that *Digests, Prepares, and Strengthens Aliment*—the chief element, or Great Digesting Principle of the Gastric Juice—the Solvent of the Food, the *Digesting, Preparing, and Strengthening Agent*, in the Stomach and Intestines of the Animal. It is the Digestive Stomach of the Ox, thus forming an Artificial Digestive Fluid in precise imitation of the natural Gastric Juice, in its chemical, pure, and healing properties, thereby offering a complete and *perfect* remedy for Dyspepsia—by the administration of the prepared Gastric Juice—by the addition of Pepsine and Diastase, are given just as they would be by a healthy Stomach. In all nothing can be more simple than the process of digestion. Nothing can be more perfect than the preparation of the Gastric Juice. Nothing can be more certain than its effects. The Scientific Evidence upon which it is based, is the highest possible degree certain and reliable. Baron Liebig, his celebrated work on Animal Chemistry, says "Any Artificial Digestive Fluid, analagous to the Gastric Juice, may be prepared from the mucous membrane of the stomach of the Ox, in which rational and perfect food suffocated, but can be softened, *converted into chyme*, in the manner as they would be in the human stomach."

Half a teaspoonful of pure Pepsin, introduced in water, or a drop or two on the tongue, will relieve in a few minutes the most distressing case of Heartburn or Sick Headache.

Dr. HOUGHTON'S Pepsin is sold by nearly all the Druggists and Dealers in Medicines throughout the United States, and is prepared in Powder and in Fluid form—and in Prescriptions, in the use of Physicians.

PHYSICIAN'S CIRCULAR, containing a history of the discovery of Dr. Houghton and his Agents describing the whole process of preparation, &c., giving the authorities upon which the claims of this new remedy is based. As it is not a *secret remedy*, an object to be concealed, but a scientific preparation, it is recommended and prescribed by Physicians of respectable standing and regular practice.

Price, in Fluid form, ONE DOLLAR per bottle.

In Powder, PEPSIN IN POWDER, Fifty Cents per bottle.

Sent by Mail, *free of postage*.

For convenience of families in all parts of the country, the DIGESTIVE MATTER OF THE PEPSIN is put up in the form of Powder, which, dissolving rapidly in water, by the addition of Dr. HOUGHTON'S Fluid, makes a pint of the Fluid Pepsin. Directions are given with each package.

OBSERVE THIS—Every bottle of the genuine PEPSIN bears the written signature of J. S. HOUGHTON, M.D., sole proprietor, Philadelphia. Pa.
